ABOUT THE CLINIC

Aimed Medical Reproduction Clinic was founded in 1989.

Aimed Medical Clinic has been providing care to female and male infertility patients for more than 25 years. The clinic employs highly qualified specialists, professionals with extensive clinical experience in the field of infertility treatment. Our doctors were trained in the best medical centers not only in the Russian Federation, but also in the United States of America, in the Czech Republic and in Austria.

The clinic has deserved authority with patients and doctors. One out of five patients come to us from other cities – Murmansk, Petrozavodsk, Pskov, Kaliningrad, Novgorod and other regions. We offer personalized approach to each of our patients. Using the latest techniques and the newest equipment, the medical center is ready to solve the most complex tasks and provide care to patients even in the most complicated cases.

ABOUT THE CLINIC

OUR MEDICAL CENTER OFFERS THE FOLLOWING SERVICES TO THE PATIENTS, WHO WANTS TO ACHIEVE PREGNANCY THROUGH IVF:

- diagnosis and treatment for all types of male and female of infertility, using assisted reproductive technologies;
- in vitro fertilization;
- artificial insemination with husband's sperm;
- artificial insemination by donor;
- cryopreservation of sperm and embryos;
- use of such a method as surrogacy;
- use of donor eggs;
- PGD diagnosis (preimplantation diagnosis of embryos) that helps to increase the efficiency of IVF programs up to 70% and to avoid having a child with severe hereditary diseases.

ABOUT THE CLINIC

In Aimerd clinic you will be provided comprehensive approach, as well as complete understanding of the problems that you have. Specialists of the clinic are guided by a system of priorities that helps to achieve positive results:

- drawing up individual reproductive programs that take into account the type of infertility in patients and other factors affecting the possibility of conception;
- use of the latest achievements of reproductive medicine, which allow to overcome even severe forms of infertility;
- in-depth diagnosis of the reproductive system in patients with identification of causes of impossibility of natural conception;
- maximum use of high-tech equipment of the clinic and continuous improvement of the level of professionalism of our personnel.

Only the results of comprehensive examination of the couple can help to accurately diagnose the causes of infertility. If you decide to be treated for infertility, the specialists of our clinic will determine which method suits you personally. Doctors will explain in detail why this method was chosen for you and what are your chances of conception. We believe that informed cooperation of the patient with the doctor increases the chances of treatment success.

FEEDBACK

ANASTASIA NIKOLAY MAY 4, 2017 AT 11:26

WE MADE IVF IN AUGUST 2016, AS A PART OF COMPULSORY HEALTH INSURANCE PROGRAM. I HAD A TUBAL FACTOR, THERE WERE 2 ECTOPIC PREGNANCIES. THEY IMPLANTED 2 FOUR-DAY EMBRYOS, EVERYTHING WAS GREAT ON THE FIRST TRY! I WANT TO EXPRESS MY DEEP GRATITUDE TO DOCTOR IRINA ALEKSANDROVNA IGNATENKO. SHE IS VERY GOOD, FRIENDLY DOCTOR, SHE WILL EXPLAIN EVERYTHING AND WILL ANSWER ALL QUESTIONS. ON APRIL 20, 2017, WE BECAME PARENTS OF BEAUTIFUL BOY AND GIRL) ONCE AGAIN, I THANK THE DOCTOR AND THE CLINIC FOR THE GIFT OF HAPPINESS!

VALENTINA IMSHINETSKAYA APR 23, 2016 AT 17:35

HELLO, IN NOVEMBER 2013 WE MADE IVF IN YOUR CLINIC. FROM THE VERY FIRST DAY OF THE VISIT I REALIZED THAT I HAVE MADE RIGHT DECISION. SILENT, COSY, SECLUDED CLINIC. THERE ARE NOT SO MANY PEOPLE, BECAUSE ALL THE VISITS ARE BY APPOINTMENT. A QUIET ATMOSPHERE, VERY POLITE STAFF. INFERTILITY OF 20 YEARS. TUBAL FACTOR. ON THE FIRST TRY WITH ONE EMBRYO - A SUCCESSFUL PREGNANCY AND A LONG-AWAITED CHILD AT 42 YEARS OLD!!!! MANY THANKS TO AIMED CLINIC, A DEEP BOW TO THE REPRODUCTIVE DOCTOR YULIA ANATOLIEVNA DUMANSKAYA, A REMARKABLE AND ATTENTIVE DOCTOR.

NATALIA LOPATINA MAY 4, 2017 AT 14:12

WONDERFUL DOCTOR, YU.A. DUMANSKAYA..!!! WE EVEN DIDN'T NEED IVF. AFTER A YEAR OF TRYING, I DECIDED TO TAKE CARE OF MY HEALTH. I DECIDED TO GO TO AIMED CLINIC, TO START WITH ULTRASOUND. ACCIDENTALLY I MADE AN APPOINTMENT TO YULIA ANATOLIEVNA. THE DOCTOR IS VERY COMPETENT, ATTENTIVE AND SENSITIVE. THERE WERE PROBLEMS WITH THE UTERUS, SHE PRESCRIBED ADEQUATE TREATMENT. AFTER A COURSE OF HORMONE THERAPY THERE WAS A PREGNANCY. BUT ALAS, I VISITED MY FEMALE COUNSELLING CENTER AND THERE THEY DID NOT PAY ATTENTION TO HORMONAL DISORDERS (MISCARRIAGE). I TOOK CARE OF THE NEXT PREGNANCY, AND VISITED A NORMAL DOCTOR. YULIA ANATOLIEVNA PRESCRIBED SAVING THERAPY, YOU CAN ALWAYS ASK HER BY E-MAIL, SHE WILL ANSWER YOUR QUESTIONS! I HIGHLY RECOMMEND THIS HIGHLY QUALIFIED DOCTOR AND A PLEASANT PERSON! HUGE THANKS FOR THE DAUGHTER!!!
